

WHY LANGUAGE SCIENTIFIC?

IOPI Medical is a medical device company focused on delivering clinically validated solutions in a highly regulated environment where accuracy, compliance, and clarity are essential, particularly in medical device labeling and Instructions for Use (IFUs).

As the company expanded internationally, IOPI Medical required reliable, regulation-compliant translations across multiple European languages to support product launches in new markets. Language Scientific has served as a trusted translation partner, supporting a wide range of medical device documentation, including IFUs and other standard regulatory materials.

Language Scientific works directly with Tara Mythen, PhD, President & CEO of IOPI Medical, providing expert medical translations supported by clear communication and a streamlined project management process.

The Problem

IOPI Medical needed medical device documentation translated into multiple European languages to support international product launches. Because these materials are patient- and regulator-facing, accuracy and compliance were absolutely critical.

The challenges included:

- Meeting strict regulatory requirements for medical device labeling
- Translating content into multiple European languages, including Greek, Dutch, French, and German
- Ensuring accuracy, consistency, and correct formatting across all deliverables

IOPI Medical required a translation partner with proven medical device expertise and strong quality assurance processes to support global expansion without delays or rework.

RESULTS

Accurate Translations, Regulatory Confidence, and Operational Efficiency

A trusted partnership was established to support ongoing international growth

Projects were delivered on time and error-free, supporting successful launches in new territories

Translation quality improvements significantly reduced QA review and rework

ACTIONS TAKEN

- Delivered expert translations for medical device documentation, including IFUs, across multiple European languages
- Applied medical and regulatory expertise to ensure accuracy and compliance
- Implemented rigorous quality assurance to eliminate errors and formatting issues
- Maintained a smooth, well-managed workflow aligned with internal processes
- Ensured clear, consistent communication throughout each project

"Fantastic communication, product, and delivery time. It's about as effortless for us as possible."

— Tara Mythen, PhD, President & CEO, IOPI Medical
